ALADINO HIDEAWAY DOUBLE BED

(MANUAL & MOTORIZED VERSION)

Aladino is a practical bed with an easy, balanced manual opening. Its sturdiness makes it suitable for daily use, thanks to the increased tube sections (60×30) that prevent the doors from bending, guaranteeing their long life. The door becoming a footboard distinguishes the aesthetics of this system, making it unique because it conforms to traditional bed canons.

Motorized Mechanism

The **Motorized Hideaway Bed's** movement happens by means of two engine put on the sides of the structure, and recline the bedspring and by other two gas springs which recline the upper panel, that becomes the bed's footboard.

Available in Size :

- **Double Bed Size (Vertical)** : 1620 × 2000mm

TECHNICAL DETAILS

Description	Manual Version	Motorized Version
Bed Frame Height	350mm	350mm
Depth Dimension	1790mm	1790mm

Technical Drawing :

NILO HIDE AWAY SINGLE BED

Nilo is a functional foldaway bed/desk system with an easy balanced manual opening. When opening/closing, the top of the desk never changes its inclination. Maintaining the constant horizontality of the top allows the user to open and close the bed without having to remove objects from the desk. The unique design of the mechanism eliminates any point of cutting and crushing.
